What is Great With God Bootcamp? Basic Christian Discipleship Training.

Focus and philosophy: Jesus definition of a disciple (John 15 and Matthew 28).

- By focusing our meeting on experiential learning rather than information. By focusing on equipping by doing, rather learning information to be self-applied on your own. We model, like a master guiding his apprentice to learn a skill through practice and repetition. Consider these weekly meetings an environment of an equipping workshop. Learn the best practices of "the mighty in spirit," by doing rather than studying about them.
